

CRANIAL PROTECTION

Mullet

Mullet with Velcro Chin Closure

Balaclava

CRANIAL PROTECTION

CoolMax®/Lycra® and X-STATIC® Silver Fiber with Lycra versions for use as an interface or scanning. Designed for children wearing an orthosis to treat positional plagiocephaly and other head shape deformities. Used to protect the skin and wick moisture away from the skin. X-STATIC® guards against dermatitis. If skin eruptions have occurred, changing interfaces two or three times a day and washing both head area and garments daily are helpful. Stretch allows one size to fit heads of 3 to 18 month old infants.

STYLE

- 1SP1-MULL** Mullet Cranial Interface
- 1XP1-MULL** Mullet Cranial Interface
- 1XPC-MULL** Mullet Cranial Interface with Velcro Chin Closure

MATERIAL

Anti-microbial CoolMax/Lycra. Sold each.
 Polyester/X-STATIC/Lycra. Sold each.
 X-STATIC Mullet Cranial Interface with velcro chin overlap closure to aid in helmet donning. After interface is pulled on, velcro closure should be fastened under chin to help eliminate wrinkles. The velcro closure should be released once helmet is in place for patient comfort. Caution: Leave open while sleeping. One size fits all. Sold each.

- 1CN1-R410** Balaclava Scanning Interface

Nylon/Lycra — Microfiber nylon provides a soft feel in a thinner version. Ideal for scanning or for use as an interface. Sold each.
